FLOAT

Athlete - Long Jumper. Opening sequence begins at the track. Fast Cuts and a dynamic sequence. SFX heavy. We shoot in Extreme Slow Motion during the jump. In the moment that the jumper takes the last step, we use a trampoline to achieve a floating jump effect. The video transitions into a surreal dream-like nature background. The Jumper is now in the desert/mountains. Sweat dripping on his face. We use this location to highlight full body Adidas Kit. Closeups of the clothing and cleats. Wide Shot of talent in the gear.

ON THE TRACK.
